

INTISO chemicals

di Intiso Pietro Livio

TECHNICAL DATA SHEET

UMITAN EM / ANS CONC. LIQ.

SGRASSANTE - Wetting - EMULSIFYING CHEMICAL COMPOSITION

Combination of primary alcohol ethoxylates

FEATURES

Appearance:	colorless liquid
Active substance:	approximately 80%
pH in solution at 10%:	6 - 7
Ionic charge:	nonionic
Compatibility:	anionic and non-anionic
Biodegradability:	readily biodegradable

PROPERTIES

UMITAN EM / ANS CONC. Liq is a degreaser as indicated sbagnante, emulsifying and dispersing phase degreasing of skins particularly rich in natural fatty substances. UMITAN EM / ANS CONC. Exerts a 'strong degreasing action especially on sheep and pig skins, but is used on all skin types and in liming in maceration. If you need to degrease hides light type calves, we recommend the use of small doses to avoid emptying of dermal substance.

HOW TO USE

Is used from 0.3% to 0.5% of sheep skins.

Using 1% to 1.5% of pork skins.
