TECHNICAL DATA SHEET

UMITAN SC / C LIQ.

SLIDING LIQUID FOR LEATHER

FEATURES

Appearance: colorless viscous liquid

pH in solution at 10%: 5.5 - 6.5

PROPERTY

UMITAN SC / C liq was made on specific requests in order to obtain a good slipperiness, while containing also the costs of the product.

UMITAN SC / C, added during the processing of hides in barrel, increases the viscosity of the liquid, thus reducing friction and friction due to the mechanical action.
