## TECHNICAL DATA SHEET

### UMITAN TAS / ANC LIQ.

TANNING / NEUTRALISING

CHEMICAL COMPOSITION

Blend of tannins and buffering salts

#### FEATURES

Appearance: white powder  
pH in solution at 10%: 8 - 9

#### PROPERTY

UMITAN TAS / ANC Liq is used as a neutralizing product for chrome leather, does not overload the flower and improves the fullness, getting a leather with a touch more round.

UMITAN TAS / ANC has also a good buffering power with a sweet effect risonante, for this is used during neutralization and chrome retanning.

#### HOW TO USE

It is used by 1-3% of UMITAN TAS / ANC in neutralization.

Using from 0.5 to 2% of UMITAN TAS / ANC in tanning.
